

growing green awards

honoring people + organizations transforming the built environment

2012 NOMINATION PACKAGE

Thank you for submitting a nomination for a 2012 USGBC-Missouri Gateway Chapter Growing Green Award. These awards provide recognition to those people and organizations who are transforming our built environment and our community into a healthier, more environmentally friendly and prosperous place to live, work and learn. The 2012 categories have been modified in efforts to be inclusive of all individuals, groups and organizations that are transforming the built environment, which includes new and existing buildings, landscapes, objects and systems. Thank you for your commitment to the environment and your commitment to recognizing those doing exceptional work!

TIMELINE

GENERAL REQUIREMENTS OF NOMINATION

Nominees can be **individuals, groups or organizations**. Nominees cannot be projects, buildings or objects.

Nominations can be self-nominations or those by a third-party.

Nominations are free of charge.

Nominees are not required to be members of USGBC or USGBC-Missouri Gateway Chapter.

Nominees must have a clear connection to the Chapter territory, either through offices or residence within the USGBC-Missouri Gateway Chapter territory or through location of the individuals or organization within the territory. USGBC-Missouri Gateway Chapter's territory covers the St. Louis metropolitan area, Southern Illinois, Eastern Missouri and Southwestern Missouri. Cities in the USGBC – Missouri Gateway Chapter territory include Springfield (MO), Carbondale (IL), Columbia (MO), Rolla and Jefferson City.

Nominations must be submitted electronically as a single PDF. It must include a cover sheet (see above) plus a narrative summarizing the reason for nomination, criteria used to support it, and history of the nominee. Additional documentation is optional, and may include photos, graphics, letters of support, LEED Checklists, etc. Maximum length of the narrative is **three (3) pages** double spaced; Maximum accepted file size is 4 MB including the narrative and any supporting documentation. See www.usgbc-mogateway.org for a nomination example from a 2011 award winner.

Submittals sent in an incorrect format or over the size limit will be disqualified.

Submissions must be sent electronically to GrowingGreenAwards@gmail.com. Nominators are responsible for ascertaining that their electronic communications were received in a timely fashion. Applications can be, and are encouraged to be, submitted earlier than the deadline. No hard copies will be accepted.

Entrants may nominate more than one individual or organization. Nominees will be notified of their recognition immediately after the deadline for nominations.

Nomination deadlines are absolute. All materials must be submitted electronically by **Friday, January 27, 2012 at 5:00 P.M. CST.**

Awards will be given at the sole discretion of the judges. Nominations in a category do not automatically mean that the award will be given in that category. Outstanding multiple nominations within any category may trigger subcategories of awards within a given year.

The judges are a panel of four sustainable industry leaders outside of the Chapter territory and two past Growing Green Award winners. Judging criteria is based upon:

- meeting the intent of the submitted category
- exhibiting a transformative roll in the built environment
- defining a clear vision of goals
- exemplifying innovation and creativity
- demonstrating progressive sustainability methods
- communicating a clear and compelling message
- supporting documentation of submission

For questions, contact the Chapter at 314-577-0854 or GrowingGreenAwards@gmail.com

AWARD CATEGORIES CRITERIA

COMMUNITY CHAMPION

This award recognizes those individuals or organizations that exemplify leadership in giving back to our community through commitment of time, energy and passion to the built environment.

The intent of the Community Champion Award is to honor those that have committed a significant amount of time to improving our sustainable community by providing leadership by example and through action including, but not limited to:

- Providing leadership, consulting and / or financial assistance to social entrepreneurs who are transforming the local built environment
- Providing leadership, consulting and / or financial assistance to help individuals, groups and organizations become leaders and champions of sustainability
- Supporting and helping launch ideas, projects and initiatives that promote sustainable practices and attempt to address the challenges of the sustainability movement
- Providing social networks and opportunities to recognize and promote the efforts, actions and leadership of others to transform the built environment
- Supporting, encouraging and partnering with both local governmental authorities and / or private entities to promote sustainability
- Supporting, encouraging and partnering with local governments to adopt codes, ordinances and policies that promote green building practices, promote private sector innovation and provide uniform guidelines for the community at large
- Encouraging social responsibility and equality for all with regards to sustainable building and development

Reasons for the nomination should be clearly outlined and methods for achievement of these goals should be detailed. Discuss trade-offs and interactions to achieve the goals as well as lessons learned.

Discuss how the nominee has transformed the built environment, including the benefits to the community. Discuss whether the strategies used in this nomination are transferable to others.

Discuss measurements for sustainability of the nomination.

Insightful, meaningful design, processes, construction or stewardship to achieve sustainability will be given preference.

EDUCATION

This award recognizes those individuals or organizations that exemplify leadership in education pertaining to the built environment. Education occurs in many facets: the classroom; the workplace; in local government; at home; and lots of places in between.

The Education Award is granted to an individual, group or organization working to further sustainable building through at least one of the following:

- Is recognized as an outstanding educator, or is providing exceptional support for educators, is teaching others about green building and / or preparing others in the academic or workplace for the green building marketplace as evidenced by best practices and skill development
- Has created strategic relationships between educators and organizations for promoting green education efforts in sustainable building
- Has been an integral leader in the design, development or construction of sustainable building(s)
- Has used a sustainably-designed and / or constructed building as a learning laboratory to teach green building practices and concepts
- Has successfully trained, instructed, documented and shared through books, presentations or demonstration, the practical implementation of sustainable building to further green building practices

Reasons for the nomination should be clearly outlined and methods for achievement of these goals should be detailed. Discuss trade-offs and interactions to achieve the goals as well as lessons learned.

Discuss how the project, operation or program has substantially transformed the built environment, including the benefits to the 'teacher' and 'student(s)' as well as the community. Discuss whether the strategies used in this nomination are transferable to others.

Discuss measurements for sustainability of the nomination.

Insightful, meaningful design, processes, construction or stewardship to achieve sustainability will be given preference.
