“Sustainable Pavements”

Presented by –

**Brett Chandler Gaither, Director of Business Development
Byrne & Jones Construction**

Brett Gaither has spent several years working with engineers, architects, Departments of Transportation, commercial property owners, schools, and private customers, showing them how to manage their pavement and to implement cost-saving asphalt pavement management, recycling and preservation programs. He has been successful in helping customers reduce their annual asphalt budgets by applying a solid pavement management plan.

Presentation Overview

Brett will provide an extensive overview (including installation photos and videos) of:

- Porous asphalt
- Porous concrete
- Full-depth reclamation (asphalt rehabilitation)

Time 5:00 – 6:00 pm, Networking Reception
6:00 – 7:00 pm, Program

Location Missouri Botanical Garden
Monsanto Center
4344 Shaw Avenue, 63110

Parking Free! Parking lot adjacent to building
