Sustainability at SIUE
The Design Guidelines adopted by the SIU Board of Trustees on Jan. 23, 2006 stated, “The building (new, addition or renovation) must be LEED (Leadership in Energy and Environmental Design) Certifiable, that is, designed in conjunction with the LEED point system so that the University, should it so choose, could have the building formally certified." The University will then determine on a project-by-project basis if a building will become a LEED project.
Evergreen Hall - Student Residence (2007)
College of Arts and Sciences
2007 Colloquium

Thinking about the Environment

April 4-6, 2007
Morris University Center

See: www.siue.edu/CAS/COLLOQUIA/
for details of the paper, performance, poster, panel, and roundtable sessions
Sustainability Advisory Group (SAG)

- SAG consists of members of the faculty, staff and student body. The group was founded on the premise that embracing sustainable practices and providing knowledge for sustainable development within an institution of higher learning can achieve the following:
  - Improve teaching and learning;
  - Prepare students for citizenship and careers;
  - Attract students, faculty, and funding;
  - Save money and other resources for the institution and for society;
  - Improve and enhance the institution’s reputation;
  - Increase cooperation and satisfaction within institutional units;
  - Provide leadership for local and regional economic development;
  - Provide leaders for a sustainable future.
- SAG provides leadership for SIUE sustainability initiatives that lead to social justice, economic prosperity and ecologic integrity. Advisory group members will catalyze the development and implementation of sustainable policies, practices and curricula for all members of the University community.
SOS and Earth Day
Graduate Assistantship

• Reports to Vice-Chancellor of Administration
• Responsibilities include:
  – Supporting student organizations
  – Bike share program
  – Website
  – Water bottle distribution
  – STARS
Student Success Center (2009)
Water Bottles & Fill Stations

Over 100,000 fills as of Fall 2012 = 50,000 fewer plastic water bottles.
529 Cougar Village Fire (8/18/2009)
Go to siue.edu/sustainability and hit the button on the front page…
Fill out the application…wait for email approval…and go for a ride!

Sustainability

“Meeting the needs of the present without compromising the ability of future generations to meet their own needs.”

SIUE’s vision to be recognized nationally for the excellence of its programs and development of professional and community leaders necessitates its demonstrating leadership in environmental stewardship and sustainability on campus and in the larger community.

See the News and Events tab for information on Earth Week 2011.
New Science Building Complex
Art & Design Addition
College of Arts & Sciences Interdisciplinary Roundtables

SIUE Nature Preserve  -  380 Acres
Engineering Building Addition
Chancellor
Julie Furst-Bowe

Office of Sustainability
Cougar Village Certification
Lukas Athletics Annex Completed
Science Complex Completed
Engineering Building Addition
Alton Simulation Lab
Existing Science Building
When all seven projects are completed SIUE will have approximately 335,000 S.F. of LEED-certified space
IMAGINATION is more important than knowledge.
