

ENERGY STAR BENCHMARKING WORKSHOP IS HERE!

Why benchmark your building? How to accurately benchmark? What are the benefits of benchmarking? The BOMA Green Committee has developed this timely educational session on how to accurately benchmark the energy performance of your building and how to use that information to differentiate your building. Information regarding the recently updated Energy Star Portfolio Manager will also be discussed.

The workshop will include the following:

- Gathering necessary energy consumption data
- Inputting building data (and examples of errors to watch for)
- Categorizing different space types
- Benefits of having accurate information
- 2013 Updates to Portfolio Manager
- How to apply Ameren **BizSavers™** Incentive Program to your ENERGY STAR projects

When: Tuesday, July 23, 2013
8:00 AM - 9:30 AM

Where: Bank of America Plaza
Conference Center
800 Market Street
St. Louis, MO 63101
