USGBC - Missouri Gateway Chapter, The Clean Air Partnership, and RideFinders will provide an opportunity for you to share best practices and learn from one another. After the Meet Up, you can check out the 12th Annual Green Homes & Great Health Festival hosted by the Earthways Center of the Missouri Botanical Garden. Visit with over 100 vendors and experts devoted to sustainability and environmental practices.

Free admission to the Garden and Festival is included for those attending the Green Team Meet Up!

USGBC - Missouri Gateway Chapter is committed to providing education and outreach about green building principles and practices in our region. We want to see a healthier, more environmentally friendly and prosperous place to live, work and learn. We know that our local governments play an important role in this vision.

RideFinders free ridematching service enables commuters in the St. Louis region to find a ride to work or college in a carpool or vanpool.

St. Louis Regional Clean Air Partnership's mission is to increase awareness of regional air quality issues and to encourage activities to reduce air pollution emissions.
