

# FALL 2017 Benchmarking Training

*Learn How to Comply with the City of St. Louis's Building Energy Awareness Ordinance*

## City of St. Louis Building Energy Awareness Ordinance

On January 27, 2017, the City of St. Louis Board of Aldermen unanimously passed an energy benchmarking ordinance that requires municipal, institutional, commercial and multifamily residential buildings whose square footage is equal to or greater than 50,000 to track and report their energy and water usage annually to the City's Building Division. Privately owned buildings are required to benchmark and submit data by April 1, 2018 using the free, online tool ENERGY STAR Portfolio Manager.

**The USGBC-Missouri Gateway Chapter, the City of St. Louis, and partners are co-hosting three opportunities to learn how to comply.**

**The events below are free to all, but space is limited. Registration is required.**

## Benchmarking 101

*An overview of the Building Energy Awareness Ordinance with step-by-step instructions on data collection, benchmarking in ENERGY STAR Portfolio Manager, and reporting data to the City of St. Louis. Lunch is provided.*

**Wednesday, October 25, 12:00—1:30 pm**

Missouri Botanical Garden's Commerce Bank Center for Science Education  
4651 Shaw Blvd, St. Louis, MO 63110

**Thursday, November 30, 12:00—1:30 pm**

Metropolitan Square, 9th Floor Conference Room  
211 North Broadway, Suite 990, St. Louis MO 63102

**Downtown STL, Inc.**

## Benchmarking Jam

*Get hands-on assistance with energy and water benchmarking in ENERGY STAR Portfolio Manager. Visit website for full list of needed information.*

**Tuesday, November 14, 4:00—6:00 pm**

Missouri Botanical Garden's Commerce Bank Center for Science Education  
4651 Shaw Blvd, St. Louis, MO 63110
