Resources**

Resources for All Types of Projects

<p>The Academy of Science-St. Louis http://academyofsciencestl.org</p>	<p>The Academy of Science-St. Louis is an independent science organization that offers free and low-cost community-wide STEM experiences and opportunities for students and adults from throughout the metro region and surrounding counties. Programs and activities include science and STEM career explorations, BioBlitz family oriented events in urban parks, teen science cafes, free public science seminars at regional venues, and the Junior Academy of Science for students in grades 6-12.</p>
<p>The Association for the Advancement of Sustainability in Higher Education http://www.aashe.org/</p>	<p>The Association for the Advancement of Sustainability in Higher Education (AASHE) has an online resource center that contains information on sustainability in higher education and offers tools, information, and guidance for administrators, faculty, operations staff, students, and other campus stakeholders to transform their campus into a sustainable one. STARS is a self-reporting framework offered by AASHE for colleges and universities to measure their sustainability performance.</p>
<p>Bridging the Gap www.bridgingthegap.org</p>	<p>Bridging The Gap works to make the Kansas City region sustainable by connecting environment, economy and community. We educate citizens, businesses and governments about the impact their decisions have on our environment, and help them follow through with direct action to make our world, region and community green, healthy and sustainable.</p>
<p>Center for a New American Dream – Kids Unbranded Action Kit https://www.newdream.org/programs/beyond-consumerism/kids-unbranded-campaign</p>	<p>The Center for a New American Dream seeks to cultivate a new American dream – one that emphasizes community, ecological sustainability, and a celebration of non-material values. Ads are everywhere these days and kids are especially susceptible to the harms of this advertising onslaught, including materialism and psychological and behavioral problems. Moreover, this encouragement to value materialistic aims conflicts with children’s ability to make the broader changes required to live more sustainably. Kids Unbranded is a program designed to give children valuable noncommercial space in their lives to just be kids.</p>

Resources

<p>Center for Green Schools</p> <p>www.centerforgreenschools.org</p>	<p>The Center for Green Schools was established by the U.S. Green Building Council to drive the transformation of all schools into sustainable and healthy places to live, learn, work and play. By promoting the design and construction of green schools, and by greening the operations and maintenance of existing schools, we can make a tremendous impact on student health, school operational costs and the environment. The Center works directly with teachers, students, administrators, elected officials and communities to create programs, resources and partnerships that transform all schools into healthy learning environments. Their website is full of helpful resources!</p>
<p>City of St. Louis, Mayor’s Office</p> <p>https://www.stlouis-mo.gov/government/departments/mayor/</p>	<p>Contact: Catherine Werner Email: WernerC@StLouis-mo.gov Phone Number: 314-853-6388 Service: The City of St. Louis harnesses the strength and spirit of its diverse community to create an economically, socially and ecologically vibrant City for present and future generations - one that dynamically serves those who live, work, and play in the City’s rich and celebrated historic landscape.</p>
<p>Diversity Awareness Partnership</p> <p>www.dapstl.org</p>	<p>Contact: Justin Raymundo, Email: jraymundo@dapstl.org, Phone Number: 314-246-3143, Service: Diversity Awareness Partnership is a non-profit organization dedicated to promoting diversity in the St. Louis region around issues of race, religion, disability, sexual orientation and gender identity. They achieve their mission through youth program, diversity training, community forums and diversity publications.</p>
<p>EarthWays Center of Missouri Botanical Garden</p> <p>www.missouribotanicalgarden.org/media/fact-pages/earthways-center.aspx</p>	<p>Contact: Kat Golden, Email: katherine.golden@mobot.org Phone Number: 314-577-0207 Service: The EarthWays Center is a leader in the field of educating for sustainability, and its staff and programs have been a regional resource since 1988. By making materials and topics relevant to today’s learner and providing interdisciplinary, hands-on instruction for audiences of all ages, the EarthWays Center promotes wise resource use through shaping students’ behavior and changing school cultures.</p>

Resources

<p>Eco-Schools USA – National Wildlife Federation http://www.nwf.org/Eco-Schools-USA.aspx</p>	<p>Eco-Schools USA is a program that provides a framework to help educators integrate sustainable principles throughout their schools and curriculum. It uses a program of Seven Steps that involves a wide diversity of individuals from the school community - with students playing a primary role in the process. Eco-Schools USA’s Seven Steps framework offers a step-by-step method to implement your program, but it is a flexible process that allows you to complete each step in the way that best suits your school and situation. The Seven Steps are 1. Establish an Eco-Action Team, 2. Perform an Environmental Review / Audit, 3. Develop an Eco-Action Plan, 4. Monitor and Evaluate Progress, 5. Link to the Educational Curriculum, 6. Involve the Entire School and Larger Community, 7. Create an "Eco-Code" or Mission Statement. <i>Recognition:</i> Schools can apply for one of three Eco-Schools USA Awards, Bronze (self-assessed), Silver (self-assessed) and Green Flag. Green flags must be renewed every two years. A school is considered to be a permanent Eco-School once it has gained its fourth Green Flag.</p>
<p>Education for Sustainable Development Toolkit http://www.esdtoolkit.org/</p>	<p>The ESD Toolkit is an easy-to-use manual for beginning the process of combining education and sustainability. The Toolkit will help schools and communities develop a process for creating locally relevant and culturally appropriate education. This Toolkit is based on the idea that communities and educational systems need to dovetail their sustainability efforts for mutual reinforcement. The Education for Sustainable Development Toolkit will help schools and communities develop a process for creating locally relevant and culturally appropriate education. Ideally, local educational systems can reorient existing curriculums to reinforce local sustainability goals.</p>
<p>EPA Region 7’s Healthy Schools Toolkit This doesn’t exist anymore www.epa.gov/region7/citizens/schools/toolkit.htm</p>	<p>The virtual toolkit’s downloadable materials are suitable for a wide range of audiences, from school superintendents and building custodians to community organizations and student groups, and can be adapted for classroom curriculum. The Healthy Schools Toolkit consists of more than 50 educational and informational documents structured around 15 separate subject areas: Asbestos, Chemical Cleanout, Composting, Energy Star, Green Cleaning, Healthy Schools, School Integrated Pest Management (IPM), Lead, Mercury, Mold, PCBs, Radon, Rain Barrels, Rain Gardens and Recycling. Materials include PowerPoint presentations, fact sheets, brochures, flyers, and lists of helpful resources and contact information, all grouped by subject.</p>

Resources

<p>Environmental Education Association of Illinois http://www.eeai.net</p>	<p>Since initiated in 1972, The Mission of the Environmental Education of Illinois (EEAI) has been to maintain a vital network that supports and advances quality environmental education throughout the state. As host to national, state-based and independent professional development events and curriculums such as Project Flying WILD, Growing UP WILD, Prairie School Project and the Midwest Environmental Education Consortium, EEAI has set the professional standard to which educators have learned to depend on.</p>
<p>Experiential Education Exchange https://www.eeestl.org/</p>	<p>Email: eeexchangestl@gmail.com, Service: We believe students, be they 3- or 53- years old, learn best when they authentically EXPERIENCE a topic. Join us to talk, dream, & collaborate about that. The Experiential Education Exchange community supports excellent practice in experiential education and catalyzes growth and innovation.</p>
<p>Green Schools Alliance – SMART Schools Toolkit https://www.greenschoolsalliance.org/tools</p>	<p>Green Schools Alliance is an international organization of sustainable schools that fosters collaboration among its members to help them set and meet individual and collective sustainability goals. The SMART Schools Toolkit is an on-going interactive document developed for schools to share resources and best practices. Schools come at sustainability from many directions, and your sustainability plan should reflect your school's unique needs.</p>
<p>Green Schools Catalyst Quarterly http://catalyst.greenschoolsnationalnetwork.org/gscatalyst</p>	<p>The Green Schools Catalyst Quarterly (GSCQ) is a free online publication dedicated to the advancement of green, healthy, sustainable K-12 schools. GSCQ is a peer reviewed, high interest digital magazine that highlights evidence-based practices for replication in green, healthy, sustainable schools. GSCQ explores issues in-depth, including qualitative and quantitative research, and includes columns that report on and explore emergent issues.</p>
<p>Green Schools Conference & Expo http://greenschoolsconference.org/</p>	<p>The Green Schools Conference & Expo brings together green schools thought leaders and champions, including educators, school administrators, nonprofit and corporate partners, and elected officials, to advance the shared vision of green schools for all within this generation. GSCE is presented by the Center for Green Schools at the U.S. Green Building Council. The Center for Green Schools believes that everyone, from kindergartner entering the classroom to the Ph.D. student performing research in a lab, should have the ability to learn in a green school.</p>
<p>Green Schools Initiative http://www.greenschools.net</p>	<p>Provides information and resources for eliminating toxics, using resources sustainably, creating green schoolyards and buildings, serving healthy food and teaching environmental literacy and stewardship.</p>

Resources

<p>Green Schools National Network – GreenPrint™</p> <p>https://greenschoolsnationalnetwork.org/green-print/</p>	<p>Green Schools Nation Network works with educators, government, and non-governmental organizations and agencies to create broad-based initiatives and successful strategies aimed at fostering healthy, sustainable K-12 schools across the US. “GreenPrint™” is a road map of conscious actions that lead to more ecological and sustainable practices. By using this map, leaders, teachers and students can begin to implement five core practices immediately. These include: Curriculum that Advances Environmental Literacy and Sustainability, Stewardship and Service Learning, Sustainable Facilities Design and Management, Health and Well Being, and Strong Partnerships and Networks. Through long-term commitment to these core practices, schools and school districts work toward implementation of all benchmarks at the highest level.</p>
<p>Green Ribbon Schools (U.S. Dept of Education)</p> <p>http://www2.ed.gov/programs/green-ribbon-schools/index.html</p> <p>Missouri Green Schools (for MO applicants):</p> <p>http://www.missourigreenschools.org/</p>	<p>The U.S. Department of Education Green Ribbon Schools (ED-GRS) recognition award honors schools and districts that are exemplary in reducing environmental impact and costs; improving the health and wellness of students and staff; and providing effective environmental and sustainability education, which incorporates STEM, civic skills and green career pathways.</p> <p>Resource links: http://www2.ed.gov/about/inits/ed/green-strides/resources.html</p>
<p>Habitat for Humanity Saint Louis ReStore</p> <p>https://www.habitatstl.org/support/restore/</p>	<p>Phone Number: 314-371-0400 Service: The ReStore resells donated building materials and home supplies, raising money to build more homes while keeping reusable items out of area landfills. We offer meaningful educational volunteer opportunities for youths 16-18 years of age.</p>
<p>IL Math & Science Association (IMSA)</p> <p>https://www.imsa.edu/</p>	<p>Contact: Dawn Waller Email: dwaller@imsa.edu</p> <p>Phone Number: (618) 791-3855 Service: IMSA Professional Field Services offers professional development for teachers and enrichment programs for students.</p>
<p>Illinois Youth Environmental Network</p> <p>https://www.facebook.com/illinoisyen/</p>	<p>Email: info@illinoisyen.org</p> <p>Service: Illinois YEN was founded in the summer of 2014 by Edwardsville High School students who recognized the potential of connecting all of the environmentally conscious high school students in the state.</p>
<p>Learning Lab – USGBC Center for Green School’s Online Sustainability Curriculum Portal</p> <p>https://learninglab.usgbc.org/</p>	<p>Learning Lab is a new online sustainability curriculum portal offered by the Center for Green Schools. It provides K-12 teachers and school leaders with comprehensive, project- and STEM-based curriculum that encourages student leadership, environmental literacy, and real-world action.</p>

Resources

<p>Project Learning Tree (PLT) GreenSchools</p> <p>https://www.plt.org/apply-project-learning-tree-greenschools</p>	<p>Project Learning Tree (PLT) GreenSchools takes a comprehensive approach to greening a school and inspires students to take responsibility for improving the environment at their school, home, and in their community. The nationwide environmental service-learning program helps improve students' academic performance and provides teachers and students with training and resources to create healthier schools – and save money. The program is built around five hands-on, student-driven investigations: Energy, Water, School Site, Waste and Recycling, and Environmental Quality. Recognition as a Certified PLT GreenSchool is available.</p>
<p>Saint Louis Science Center</p> <p>http://www.slsc.org</p>	<p>Phone Number: 314-289-4400 Service: We provide educational programs as well as field trips to our site. Our mission is to ignite and sustain lifelong science and technology learning.</p>
<p>St. Louis Audubon Society</p> <p>http://www.stlouisaudubon.org</p>	<p>Our Bring Conservation Home Program provides on-site assistance to small, private landowners* in the greater St. Louis area for the restoration of native plant and animal habitat on their grounds. The will offer advice in landscaping with environmentally healthy and sustainable <u>native plant species</u>, the removal of <u>invasive plant species</u>, <u>water conservation</u> on the urban landscape, and other <u>stewardship practices</u> that promote healthy habitat for birds, native wildlife and people.</p>
<p>St. Louis Earth Day</p> <p>https://stlouisearthday.org/</p>	<p>St. Louis Earth Day empowers you and your community to create and celebrate a greener St. Louis, every day, through Recycling On the Go, the Green Dining Alliance, Earth Day Action Grants, and the Earth Day Festival.</p>
<p>St. Louis Zoo</p> <p>http://www.stlzoo.org</p>	<p>The Saint Louis Zoo's educational services are an integral part of the institution's commitment to conservation. Since the 1960s, the Zoo has offered engaging programs, exhibits and materials that educate our community about wildlife, help visitors feel more connected to animals, and motivate them to take action to preserve the natural world.</p>
<p>Shelburne Farms' Sustainable Schools Project</p> <p>http://sustainableschoolsproject.org/</p>	<p>Shelburne Farms is a nonprofit organization educating for a sustainable future. The Sustainable Schools Project is a professional learning model designed to help schools use sustainability as an integrating context for curriculum, community partnerships, and campus practices. We orient our work around the belief that educators are leaders in creating change in schools and communities toward a healthier and more just world. We define Educating for Sustainability as learning that links knowledge, inquiry, and action to help students build a healthy future for their communities and the planet.</p>

<p>The United Nations Education, Scientific and Cultural Organization (UNESCO) – Sustainable Development Goals</p> <p>https://www.un.org/sustainabledevelopment/sustainable-development-goals/</p> <p>http://worldslargestlesson.globalgoals.org/</p>	<p>The Sustainable Development Goals are the blueprint to achieve a better and more sustainable future for all. They address the global challenges we face, including those related to poverty, inequality, climate, environmental degradation, prosperity, and peace and justice. The Goals interconnect and in order to leave no one behind, it is important that we achieve each Goal and target by 2030. (See also: World’s Largest Lesson for teacher resources, http://worldslargestlesson.globalgoals.org/)</p>
<p>US Department of Education Green Strides</p> <p>http://www.greenstrides.org/resources</p>	<p>Created in 2011, the U.S. Department of Education Green Ribbon Schools (ED-GRS) recognition award honors public and private elementary, middle, and high schools, districts, and postsecondary institutions that are demonstrating a commitment to three Pillars: 1) reducing environmental impact and costs, including waste, water, energy use, and alternative transportation; 2) improving the health and wellness of students and staff, including environmental health, nutrition, and fitness; and 3) providing effective sustainability education, including robust environmental education that engages STEM, civic skills, and green career pathways. In early 2013, ED added Green Strides to connect all school communities with the free, publically-available resources from a variety of sources that these recognition award honorees effectively use. The Green Strides portal is intended as a one-stop shop for resources, webinars, case studies, promising practices, and collaboration so that all schools can make progress across every Pillar of the award.</p>
<p>World’s Largest Lesson</p> <p>http://worldslargestlesson.globalgoals.org/</p>	<p>World’s Largest Lesson introduces the Sustainable Development Goals to children and young people everywhere and unites them in action. This website includes a ton of quality resources and lesson plans built around the 17 global Sustainable Development Goals.</p>

Resources for Water Projects

<p>Clean Water Mission</p> <p>www.cleanwatermission.org</p>	<p>Contact: Julie Scaglione Email: julie@cleanwatermission.org Service: A used shoe and purse drive can either be a fundraiser or service project. Both Clean Water Mission (CWM) and Gateway2Give (G2G) keep used shoes and purses out of the landfill. Schools, churches, charities and civic groups have a choice in how to use the money raised from their used show/purse drives. Visit online at Gateway2Give.com if your groups wants to raise money for their own project or mission from the sale of the items and visit CleanWaterMission.org if your group is looking for a service project that brings clean</p>

	drinking water to people in developing countries.
Missouri River Communities Network - Columbia, MO http://www.moriver.org/home/about-us/	The Missouri River Communities Network serves to enhance stewardship of the longest river in North America (2,341 miles long!), the mighty Missouri.
Missouri River Relief http://www.riverrelief.org/	Missouri River Relief is a grassroots, volunteer and equipment-based not-for-profit organization dedicated to connecting people to the Missouri River through hands-on river clean-ups, education events and stewardship activities. The organization emerged organically from a group of people in mid-Missouri who simultaneously recognized the need for engaged stewardship of the Missouri River and the desire of citizens to take part in watershed solutions.
River des Peres Watershed Coalition http://www.riverdesperes.org/	River des Peres Watershed Coalition offers volunteer opportunities for area students and scout groups for habitat restoration, native planting, rain garden creation and rain barrel construction.
Shoeman Water Projects https://www.facebook.com/shoemanwater/	Contact: Nick Lintner Email: nick@shoemanwater.org Service: We collect donated shoes, export them to places such as Kenya, Haiti and South America for resale, and use the funds for clean water programs in communities around the world.
Show Me Rain Gardens http://showmeraingardens.org/	Rain garden guides and plant lists.
The Audubon Center at Riverlands http://riverlands.audubon.org	The Audubon Center at Riverlands combines the strength of Audubon with the support of local partners to connect people with the power, beauty, and natural diversity of our nation's greatest river – the Mississippi.
Three Rivers Project of the Sierra Club http://www.sierraclub.org/illinois/piasa-palisades/about-us	The Project offers high school upper Mississippi River curriculum/Field Day combination where the students travel to local venues where they work in a professional setting and participate in “river issues solving” sessions. The issue solving session is meant to mimic a real-world civic experience where students from two schools work together to form consensus, utilizing requested input from the experts in their critical thinking process, and then present their solutions to the group.

Resources for Health/Safety Projects

<p>Action for Healthy Kids</p> <p>http://www.actionforhealthykids.org/</p>	<p>Action for Healthy Kids fights childhood obesity, undernourishment, and physical inactivity by helping schools become healthier places so kids can live healthier lives. Their website contains multiple tools for schools, including the Game On! program (a no-cost online guide) and School Health Index and offers school grants to increase physical activity, improve nutrition education and nutritious foods, and pilot or expand school breakfast programs. This program also provides School Grants for Healthy Kids</p>
<p>Council of Educational Facilities Planners</p> <p>http://a4le.org/websites/main/index.php?p=161</p>	<p>Future Design Competition for grades 5-8.</p>
<p>Danforth Plant Science Center</p> <p>https://www.danforthcenter.org/</p>	<p>Contact: Terry Woodford-Thomas Phone Number:314-587-1000 Service: We provide a broad range of educational opportunities for people of all ages to embrace science, advance their own knowledge and make personal connections to the Center. By “sharing our science”, we strive to inspire a scientifically informed citizenry and importantly, the next generation of plant scientists.</p>
<p>EarthDance Farms</p> <p>http://www.earthdancefarms.org/</p>	<p>EarthDance Farms operates an organic farm school providing hands-on educational experiences surrounding food, farming, and gardening.</p>
<p>Environmental Protection Agency</p> <p>http://www.epa.gov/iaq/schools/index.html</p>	<p>Indoor Air Quality Tools for Schools Action Kit The Action Kit provides best practices, industry guidelines, sample policies and a sample IAQ management plan to improve school air at little or no cost.</p>
<p>EPA School Flag Program</p> <p>https://airnow.gov/index.cfm?action=flag_program_educational</p>	<p>The Flag Program uses colored flags based on U.S. EPA’s Air Quality Index (AQI) to notify teachers, coaches, students, and others about outdoor air quality conditions. Schools raise a colored flag each day that corresponds to their local air quality forecast.</p>
<p>Gateway Greening</p> <p>http://www.gatewaygreening.org/education/</p>	<p>Our Youth Programs engage youth in sustainable food production and garden-based education to meet the diverse needs of schools in partnership with neighboring communities.</p>

Resources

<p>Metro East Community Air Project (MECAP) https://www.facebook.com/mec.airproject/</p>	<p>Metro East Community Air Project (MECAP) is part of Action Research ILLINOIS at the University of Illinois. MECAP is a community-based initiative to protect healthy living by drawing awareness to the health risks associated with air pollution, while providing community with the tools to address local air quality and public health concerns through education, outreach and air monitoring research. MECAP welcomes the opportunity to present to school, government and community groups</p>
<p>National Center for Safe Routes to School http://www.saferoutesinfo.org</p>	<p>Classroom resources and safety program information.</p>
<p>Ride Finders http://www.ridefinders.org</p>	<p>Finally, RideFinders offers a free SchoolPool program for K-12 schools that helps their parents form carpools to take students to and from school.</p>
<p>St. Louis Regional Clean Air Partnership (SLRCAP) http://www.cleanair-stlouis.com/</p>	<p>SLRCAP works to increase public awareness of air quality issues and health linkages. SLRCAP offers resources on ways individuals, schools, businesses, and government can work toward improving the air we breathe. They welcome the opportunity to present to school groups on this topic. The Partnership is best known for its daily summer-focused air quality forecasting, which is designed to engage the public in the regional clean air effort. Key initiatives include: encouraging citizens to choose alternatives to driving alone, such as carpooling and taking mass transit, plus idle reduction campaigns, since these options can drastically reduce emissions related to transportation and have many other benefits for participants, too.</p>
<p>Trailnet http://www.trailnet.org/</p>	<p>Trailnet is a local non-profit organization that helps municipalities as well as individuals understand the need for “active living.”</p>

Resources for Waste Reduction / Recycling / Compost

<p>Charity Clothing Pickup http://www.clothingpickup.com</p>	<p>We offer used clothing bins to non-profits. This is a recycling and fundraising program.</p>

Resources

<p>City of St. Louis Refuse Division's Recycling Program</p> <p>https://www.stlouis-mo.gov/government/departments/street/refuse/recycle/</p>	<p>The City of St. Louis Refuse Division's Recycling Program provides waste and recycling education in the form of presentations and activities for any K-12 school or youth group located in the City of St. Louis. This recycling program loans classroom recycling bins to schools with commercial recycling service (bins available on a first-come, first-served basis while supplies last).</p>
<p>Ithaca College</p> <p>http://www.ithaca.edu/rempe/reduce/reducewaste/</p>	<p>Resources and programs to reduce waste.</p>
<p>Missouri Recycling Association</p> <p>http://www.mora.org/k-12.html</p>	<p>Teacher and student lessons, activities, and competitions for schools by grade level.</p>
<p>Paper Recycles</p> <p>http://paperrecycles.org</p>	<p>Resources and materials for recycling paper.</p>
<p>Recycle Responsibly</p> <p>http://www.onestl.org/get-involved/regional-working-groups/materials-recycling/recycle-responsibly</p>	<p>The Recycle Responsibly public education campaign, which launched in November 2018, has been developed by the OneSTL Materials and Recycling Working Group to draw attention to and educate residents about the increasing problem of contamination in the recycling stream – and show residents, schools, and businesses how to improve recycling habits.</p>
<p>Rock and Wrap It Up</p> <p>https://www.rockandwrapitup.org/sustainability-toolbox</p>	<p>School Programs to empower students to recover food and other assets from their schools. Snack Wrap! encourages elementary school students to donate their unopened sealed manufactured packaged snacks to children in after school programs, shelters and pantries. Middle and High School students are encouraged to participate in non-perishable drives and the recovery of perishable food from their school cafeterias that have been prepared and not sold or served.</p>
<p>St. Louis Composting, Inc.</p> <p>http://stlcompost.com/</p>	<p>Contact: Sara Ryan Email: sryan@stlcompost.com Phone Number: 636-861-3344 Service: St. Louis Composting, Inc. is the region's largest producer of STA-Certified Compost, Mulch Products, and Soil Blends. They accept yard waste and food waste.</p>
<p>Saint Louis County Department of Health Resourceful Schools Project (RSP)</p> <p>http://www.stlouisco.com/HealthandWellness/RecyclingandWasteManagement</p> <p>http://resourcefulschools.org/</p>	<p>Offers resources to St. Louis County residents, schools, and businesses on recycling, composting and organics, waste disposal, Their Resourceful Schools Project (RSP) is a resource for educators, recycling coordinators, parents and students that brings the 3R message into classrooms and helps school recycling programs succeed. They offer classroom presentations, a lending library, and loan kits. On the RSP website you will find feature articles, recycling activities, games, fun facts and much, much more! Waste reduction grants are available to help fund innovative and sustainable programs to improve waste diversion in St. Louis County.</p>

Resources

<p>St. Louis-Jefferson Solid Waste District Waste Reduction and Recycling Grant Program https://www.swmd.net/</p>	<p>Contact: Linda Adams or Kathy Schweitzer at 314-645-6753. Waste Reduction and Recycling Grant Program supports the District's objective to assist local governments, businesses, industries, private organizations, and citizens in implementing an integrated solid waste management system that minimizes the amount of solid waste being generated for disposal. The grant is open to any municipality, county, public institution, not-for-profit organization, private business or individual currently operating in St. Louis County, Jefferson County, St. Charles County or the City of St. Louis, or who will be operating in one or more these areas as a result of the project. In previous grant rounds, the average amount awarded has been approximately \$40,000, with a range of less than \$5,000 to more than \$100,000</p>
<p>St. Louis Teachers' Recycle Center, Inc. http://sltrc.com/</p>	<p>Contact: Susan Blandford Email: sltrc@sbcglobal.net Phone Number: 636-227-7095 Service: "Play is at the Heart of what we do." All children and adults will experience and develop respect for our planet and recognize that this begins with the respect of each individual to make a unique difference. Our mission is to awaken people to their creative potential through cooperative effort, while promoting an ethic of conservation and reuse of valuable industrial by-product and personal home reusable discards.</p>
<p>The Story of Stuff Project http://storyofstuff.org/resources/</p>	<p>Provides high quality educational resources and programs to everyone from teachers and people of faith to business and community leaders.</p>
<p>TerraCycle http://www.terracycle.com/en-US/</p>	<p>TerraCycle works with more than 100 major brands in the U.S. and 22 countries overseas to collect used packaging and products that would otherwise be destined for landfills. It repurposes that waste into new, innovative materials and products that are available online and through major retailers.</p>
<p>USAgain http://www.usagain.com/</p>	<p>Contact: Jerry Bartley Email: j.bartley@usagain.com Phone Number: 314-504-5421 USAgain (pronounced "use-again") collects clothes and shoes, diverting them from landfills, protecting the environment and helping communities go green. They provide locations across the US (and throughout St. Louis) where you can recycle textiles any time of the day, any day of the year. USAgain then resells the textiles in the U.S. and abroad. By putting them back in the use cycle, they conserve precious natural resources, prevent greenhouse gas emissions and save landfill space. What's more, the clothes are given a second life at affordable prices for people who can't afford brand new clothes. Contact them to learn more about getting a collection bin set up at your school!</p>
